

## ABOUT DR. THOMAS N. PESOLA

Dr. Thomas Pesola (1949-2009) grew up in a garage with an outhouse in Ashby, MA. The child of an alcoholic father, Tom believed early on that a good education would be his ticket to rise above his circumstances. He excelled in school and was involved in many activities, particularly athletics. Tom graduated high school in 1967 as the valedictorian of his class, but not before being diagnosed with Type I diabetes in the spring of his sophomore year. The experience sparked his interest in medicine, and with scholarship assistance, Tom went to Northeastern University for his pharmacy degree and then to Georgetown University for dental school.

Upon earning his D.D.S. in 1976, Dr. Pesola had dental practices in West Peabody, Peabody, Danvers, and Revere, where he was practicing at the time of his death of a sudden heart attack.

We host this golf tournament in his name to acknowledge his favorite recreational activity while raising money for the scholarship fund we started to honor his memory. We hope you will join us, if not for the golf, then for the celebratory dinner and auction following.

## ABOUT THE DR. THOMAS N. PESOLA MEMORIAL SCHOLARSHIP FUND

The Dr. Thomas N. Pesola Memorial Scholarship Fund was established after Tom's death in 2009. A lifelong diabetic who came from humble beginnings, Dr. Pesola relied on scholarship money for the economically and medically unfortunate. In that vein, the fund awards scholarship money to Massachusetts residents who pursue higher education, diabetes research, or attend workshops or camps to learn how to manage their diabetes.

High school seniors applying for the scholarship must:

- have a minimum 3.0 GPA,
- demonstrate involvement in extracurricular activities, and
- submit an essay and letters of recommendation. Students need not have diabetes to qualify for the scholarship.

The scholarship fund works with the staff at Camp Joslin to identify campers in need of financial assistance. Camp Joslin is sponsored by the Joslin Center, where Tom received his earliest diabetes education and treatment.
